**Katys Chat**

You may have noticed your child talking about having a growth mindset. Students have been learning that our attitude towards learning can make a difference. We are focusing on recognising individual growth in learning and on developing the skills that help us to build knowledge. This is not really a new way for us to work it is more about developing the language to discuss what and why we are doing it.

Reminder: Please do not play in the car park after school. It is not a safe area and the younger children find it confusing that they are not allowed to play there during the day. Our carpark is also getting busier and we want our precious children to be safe. If you are having an afterschool chat please come into the yard and ensure that children are supervised.

Thank you.

The last page of this newsletter is the article submitted to CDN which has some great photos and information about what your children have been enjoying at school.

Thank you.

**Lifestyles Levies Term 2** lifestyle levy of $30 per child is now due

**Play is the Way Focus**

*Have reasons for the things you say or do*

If you don’t know why you’re doing something then don’t do it because it’s mostly wrong.

**Proposed Working Bee**
The proposed working bee for the 14th of May has been postponed till later in the year. Instead of holding a working bee we will organize a list of different projects which families can put their name to. A plan will be put up in the office soon. In the meantime please see Katy if you are available to help.
We will also have some mini working bees after school where people can help with small projects. Watch this Space. 😊

**Garden**
We didn’t have a very big pumpkin crop, but we did get one! On Wednesday we turned it into Pumpkin Soup. We also made fresh bread rolls and delicious Muffins which were sugar, dairy & gluten free.

Mashed banana is used instead of sugar
